WORK EXPERIENCE

Front-End Developer
Hotels.ng

📅 June 2020 - August 2020

- I worked in different teams where we created Hotel websites using technologies like JavaScript, React.js, Git, HTML and CSS.
- Assisted in reviewing pull requests on some of these projects as well as communicating about challenges and tasks.
- Worked on contact pages of some hotel websites, utilized pair programming in a scrum development style.

Mobile Web Specialist
Andela and Google Africa

📅 June 2020 - December 2020   📍 Remote

- Built a progressive web application using JavaScript, HTML, CSS and REST APIs.
- Learned and worked with Angular and TypeScript, building an album store application.
- Won the "Skill Badge" award, for excelling in the Mobile Web Specialist IQ test with a 96% score on three assessments

Technical Content Writer
Aviyel

📅 March 2022 - current   📍 Remote

- Created technical how-to documentations on integration and usage of two open source enterprise projects: Docz and Chatwoot
- Developed technical content around several open source projects operated on the Aviyel platform relating to JavaScript, React Next.js etc.
- Hosted technical webinars on the usage of Chatwoot, Docz and many other projects on the platform
- Reviewed technical articles and documentations written by my colleagues assigned to me.

Technical Writer
100ms

📅 February 2022 - April 2022   📍 Remote

- Built a video/audio conferencing web application using the 100ms SDKs , REST APIs, JavaScript and React

CAREER OBJECTIVE

A Software Developer and Technical Writer with passion for creating solutions. I have spent the last two years self-learning about web development, interning at various bootcamps. I also dabbled into Web 3 in 2022 to gain more understanding on Blockchain technology. I am a fast learner with an ability to deliver before deadlines.

EDUCATION

Bachelor of Science
Industrial Chemistry
University of Benin

📅 2016 - 2021
📍 Benin City, Nigeria

Diploma
Software Engineering
AltSchool Africa

📅 2022 - current
